

Component::Component

```
graph BT; A[Component::RenderComponent] --> B[Component::Component];
```

A UML class diagram illustrating inheritance. It consists of two rectangular boxes. The top box, representing the superclass, is white with a black border and contains the text "Component::Component". The bottom box, representing the subclass, is gray with a black border and contains the text "Component::RenderComponent". A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that "Component::RenderComponent" inherits from "Component::Component".

Component::RenderComponent
